

Conservation District Partnership Form

Your local Conservation District provides technical assistance, education, and environmental projects throughout the county. We are a government non-profit that gets no State funding and sustain ourselves through fundraisers, grants, and generous partners. We want to become more connected with the community and work with partners of various fields to connect people more to their natural resources. All partners will be invited to quarterly meetings where the Conservation District will discuss events, resource allocation, and future plans. We would like to promote our partners that help us on our mission and recognize them through our website, social media, events, and fundraisers.
